

# Threat Assessment

Our team of highly skilled security experts leverages best-in-class technology to conduct Threat Assessments that evaluate your organization's cybersecurity policies, vulnerabilities, and protective measures. We provide consultative analysis, including actionable remediation plans, to help you establish a secure infrastructure and appropriate defense systems.

## EXTERNAL THREAT ASSESSMENT

- Analyze external cybersecurity vulnerabilities and threat levels quickly, without interrupting ongoing operations
- Leverage a one-time assessment and expert recommendations to kickstart the process of establishing appropriate cybersecurity policies and protection

## INTERNAL THREAT ASSESSMENT

- Evaluate organizational cybersecurity health and protective measures from the inside out
- Provide recurring threat assessments to evaluate organizational progression against vulnerabilities

### Discover Cybersecurity Vulnerabilities

- Leverage best-of-breed tools and methodologies to identify security vulnerabilities and evaluate your organization's risk exposure

### Leverage Expert Consultation To Minimize Vulnerability From Cybersecurity Threats

- Utilize prioritized reporting and actionable recommendations from our security experts to remediate vulnerabilities
- Develop a plan to establish a secure network with minimal exposure, using industry best practices and customized mitigation strategies

### Track Your Progress Towards Establishing A Secure Network Environment

- Monitor the evolution of cybersecurity protective measures and policies through ongoing assessments of your organization's security progression

Benefit from our specialized focus in cybersecurity managed services, threat hunting, and mitigation

- ✓ Our Security Operations Center (SOC) team brings decades of security experience across a multitude of industries
- ✓ 20+ years of experience supporting small to mid-sized enterprise technology infrastructures
